Create HTML Pages

Team Id	PNT2022TMID36947
Project Name	AI-POWERED NUTRITION ANALYZER FOR
	FITNESSENTHUSIASTS

- We use HTML to create the front-end part of the web page.
- Here, we have created 3 HTML pageshome.html,image.html,imageprediction.html, and 0.html.
- home.html displays the home page.
- image.html is used for uploading the image
- imageprediction.html will showcase the output
- 0.html is to showcase the result. It tells the action to be performed on imageprediction.html while showcasing the result.
